NOTES TO THE UNAUDITED CONDENSED FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Description of Business

DANLAX, CORP. (“the Company”) was incorporated under the laws of the State of Nevada, U.S. on April 10, 2013. The Company is a start-up company. Since inception through October 31, 2014 the Company has not generated any revenue and has accumulated losses of \$30,526. Company is in the business of mobile games development.

Cash and Cash Equivalents

The Company considers all highly liquid instruments purchased with a maturity of three months or less to be cash equivalents to the extent the funds are not being held for investment purposes.

The Company's bank accounts are deposited in insured institutions. The funds are insured up to \$250,000. At October 31, 2014 the Company's bank deposits did not exceed the insured amounts.

Basic Income (Loss) Per Share

The Company computes loss per share in accordance with “ASC-260”, “Earnings per Share” which requires presentation of both basic and diluted earnings per share on the face of the statement of operations. Basic loss per share is computed by dividing net loss available to common shareholders by the weighted average number of outstanding common shares during the period. Diluted loss per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive.

Dividends

The Company has not adopted any policy regarding payment of dividends. No dividends have been paid during any of the periods shown.

Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred income tax assets and liabilities are recognized for the estimated tax consequences attributable to differences between the financial statement carrying values and their respective income tax basis (temporary differences). The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Advertising Costs

The Company's policy regarding advertising is to expense advertising when incurred. The Company incurred advertising expense of \$0 during the period ended October 31, 2014.

Accounting Basis

The Company uses the accrual basis of accounting and accounting principles generally accepted in the United States of America (“GAAP” accounting). The Company has adopted July 31 fiscal year end.

Impairment of Long-Lived Assets

The Company continually monitors events and changes in circumstances that could indicate carrying amounts of long-lived assets may not be recoverable. When such events or changes in circumstances are present, the Company assesses the recoverability of long-lived assets by determining whether the carrying value of such assets will be recovered through undiscounted expected future cash flows. If the total of the future cash flows is less than the carrying amount of those

assets, the Company recognizes an impairment loss based on the excess of the carrying amount over the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or the fair value less costs to sell.

Recent accounting pronouncements

On June 10, 2014, the Financial Accounting Standards Board ("FASB") issued update ASU 2014-10, Development Stage Entities (Topic 915). Amongst other things, the amendments in this update removed the definition of development stage entity from Topic 915, thereby removing the distinction between development stage entities and other reporting entities from US GAAP. In addition, the amendments eliminate the requirements for development stage entities to (1) present inception-to-date information on the statements of income, cash flows and shareholders equity, (2) label the financial statements as those of a development stage entity; (3) disclose a description of the development stage activities in which the entity is engaged and (4) disclose in the first year in which the entity is no longer a development stage entity that in prior years it had been in the development stage. The amendments are effective for annual reporting periods beginning after December 31, 2014 and interim reporting periods beginning after December 15, 2015, however entities are permitted to early adopt for any annual or interim reporting period for which the financial statements have yet to be issued. The Company has elected to early adopt these amendments and accordingly have not labeled the financial statements as those of a development stage entity and have not presented inception-to-date information on the respective financial statements.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Stock-Based Compensation

As of October 31, 2014 the Company has not issued any stock-based payments to its employees. Stock-based compensation is accounted for at fair value in accordance with SFAS No. 123 and 123(R) (ASC 718). To date, the Company has not adopted a stock option plan and has not granted any stock options.

Revenue Recognition

The Company will recognize revenue when products are fully delivered or services have been provided and collection is reasonably assured.

NOTE 2 – GOING CONCERN

The accompanying financial statements have been prepared in conformity with generally accepted accounting principle, which contemplate continuation of the Company as a going concern. However, the Company had no revenues as of October 31, 2014. The Company currently has limited working capital, and has not completed its efforts to establish a stabilized source of revenues sufficient to cover operating costs over an extended period of time.

Management anticipates that the Company will be dependent, for the near future, on additional investment capital to fund operating expenses. The Company intends to position itself so that it may be able to raise additional funds through the capital markets. In light of management's efforts, there are no assurances that the Company will be successful in this or any of its endeavors or become financially viable and continue as a going concern.

Future tax benefits which may arise as a result of these losses have not been recognized in these financial statements, as their realization is determined not likely to occur and accordingly, the Company has recorded a valuation allowance for the deferred tax asset relating to these tax loss carry-forwards.

NOTE 6 – SUBSEQUENT EVENTS

General

Danlax, Corp. was incorporated in the State of Nevada on April 10, 2013 and established a fiscal year end of July 31. We do not have revenues, have minimal assets and have incurred losses since inception. We are a development-stage company formed to develop and sell mobile games for the Apple and Android platforms. We have recently started our operation. As of today, we have developed our business plan and developed concepts of our first mobile game. We just started to develop a concept for our first mobile game and there is no guarantee that we ever develop this game. We will develop other mobile games when/if our first mobile game is successful and we have available funds for further development.

A mobile game is a video game played on a feature phone, smartphone PDA, tablet computer, portable media player or calculator. Mobile games are played using the technology present on the device itself. For networked games, there are various technologies in common use. Examples include text message (SMS), multimedia message (MMS) or GPS location identification. However, there are non-networked applications that simply use the device platform to run the game software. Mobile games are usually downloaded via the mobile operator's network, but in some cases are also loaded in the mobile handsets when purchased, via infrared connection, Bluetooth, or memory card.

RESULTS OF OPERATION

We are a development stage company and have not generated any revenue to date. We have incurred recurring losses to date. Our financial statements have been prepared assuming that we will continue as a going concern and, accordingly, do not include adjustments relating to the recoverability and realization of assets and classification of liabilities that might be necessary should we be unable to continue in operation. We expect we will require additional capital to meet our long term operating requirements. We expect to raise additional capital through, among other things, the sale of equity or debt securities.

THREE MONTH PERIOD ENDED OCTOBER 31, 2014 COMPARED TO THE THREE MONTH PERIOD ENDED OCTOBER 31, 2013

Our net loss for the three month period ended October 31, 2014 was \$3,341 compared to a net loss of \$4,514 during the three month period ended October 31, 2013. During the three month period ended October 31, 2014 we did not generate any revenue.

During the three month period ended October 31, 2014, we incurred general and administrative expenses of \$3,341 compared to \$4,514 incurred during the three month period ended October 31, 2013. General and administrative expenses incurred during the three month period ended October 31, 2014 were generally related to corporate overhead, financial and administrative contracted services, such as legal and accounting, developmental costs, and marketing expenses.

LIQUIDITY AND CAPITAL RESOURCES

THREE MONTH PERIOD ENDED OCTOBER 31, 2014

As of October 31, 2014, our current assets were \$6,280 compared to \$9,521 in current assets at July 31, 2014. Current assets were comprised of \$6,280 in cash. As of October 31, 2014, our current liabilities were \$406. Current liabilities were comprised of \$306 in advances from a Director and \$100 in accounts payable.

Stockholders' equity was \$5,874 as of October 31, 2014 compared to stockholder's equity of \$9,215 as of July 31, 2014.

CASH FLOWS FROM OPERATING ACTIVITIES

We have not generated positive cash flows from operating activities. For the three month period ended October 31, 2014, net cash flows used in operating activities was \$3,241 consisting of a net loss of \$3,341 and accounts payable of \$100. Net cash flows used in operating activities was \$4,514 for the three month period ended October 31, 2013.

CASH FLOWS FROM FINANCING ACTIVITIES

We have financed our operations primarily from either advances from shareholders or the issuance of equity instruments. For the three month periods ended October 31, 2014 and 2013, we have not received any cash flow provided by financing activities.

PLAN OF OPERATION AND FUNDING

We expect that working capital requirements will continue to be funded through a combination of our existing funds and further issuances of securities. Our working capital requirements are expected to increase in line with the growth of our business.

Existing working capital, further advances and debt instruments, and anticipated cash flow are expected to be adequate to fund our operations over the next three months. We have no lines of credit or other bank financing arrangements. Generally, we have financed operations to date through the proceeds of the private placement of equity and debt instruments. In connection with our business plan, management anticipates additional increases in operating expenses and capital expenditures relating to: (i) acquisition of inventory; (ii) developmental expenses associated with a start-up business; and (iii) marketing expenses. We intend to finance these expenses with further issuances of securities, and debt issuances. Thereafter, we expect we will need to raise additional capital and generate revenues to meet long-term operating requirements. Additional issuances of equity or convertible debt securities will result in dilution to our current shareholders. Further, such securities might have rights, preferences or privileges senior to our common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, we may not be able to take advantage of prospective new business endeavors or opportunities, which could significantly and materially restrict our business operations.

MATERIAL COMMITMENTS

As of October 31, 2014, we had no material commitments.

PURCHASE OF SIGNIFICANT EQUIPMENT

We do not intend to purchase any significant equipment during the next twelve months.

OFF-BALANCE SHEET ARRANGEMENTS

As of the date of this Quarterly Report, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

GOING CONCERN

The independent auditors' audit report accompanying our July 31, 2014 financial statements contained an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. The financial statements have been prepared "assuming that we will continue as a going concern," which contemplates that we will realize our assets and satisfy our liabilities and commitments in the ordinary course of business.

An evaluation was conducted under the supervision and with the participation of our management of the effectiveness of the design and operation of our disclosure controls and procedures as of October 31, 2014.
